V. ADDITIONAL REMARKS CONCERNING PROPOSAL:	
<p>We purpose that all three magisterial districts remain, because, after realignment all districts will be within 10% of the county average and 15% of the 6th class county average. The population density of Greene County is low. If a district were to be eliminated, the poor road net, the distances to be traveled, and the lack of public transportation would severely limit access to the courts. With only two districts, each magisterial district judge would have a workload of 46% greater than the average magisterial district in a 6th class county.</p>
