

Aleppo Township High School

Built in 1912 -- Closed in 1947

475 boys and girls attended this high school, of these 234 graduated.

The building was sold to Berleigh Wright and taken down by Harrison Welling.

Mr. Wright had a large barn built from the material. This barn is located just

North of Ruff Creek about one mile and can be seen from Route 19.

This closes the history of the Aleppo Township High.
