

Wren's Nest Covered Bridge

Bridge Number
38-30-33

Commissioned by Richard & Eloise Davison and built by Fred McCracken in 1993, blacksmith work done by Cameron Tool. It is located north of Aleppo on SR 3001 on the left side of the road near a log cabin on the hill owned by the Davison's. Fred McCracken of Wind Ridge, Aleppo Township, built an old-fashioned covered bridge across South Wheeling Creek, connecting a private drive to Aleppo Road between Routes 18 & 21 near Ryerson Station. The bridge was built exactly like they were in the 1880s in Greene and Washington Counties.

Constructed with King Truss, with two reinforced concrete abutments stand 9' high, 16' wide & 29' apart. All framing is made of oak beams; with poplar wood as the siding and rafters.
